Inside this issue

- Introduction
- Pain Points
- Solutions
- Metrics
- Monetization Strategy

Introduction

Sportskeeda is a global sports and esports news website founded in 2009. It is known to be the go-to platform for hardcore sports fans. Its product offerings include exclusive content, live scores, videos, and in-depth articles produced by experienced sports journalists. Nazara Technologies acquired a 67% stake in Sportskeeda in 2019 for Rs. 44 Crores.

Insights

Cricket Related Content is Booming

The most popular sport in India, cricket, is by far the most searched sport online. Cricket queries have grown by 80% in just the last two years.

Online interest in football is extending beyond premium audiences

The advent of leagues such as ISL has led to diversifying sports interests. While the English Premier League, Spanish La Liga, and Italian Series A find their largest traction in metro cities, ISL finds its largest interest in Tier 2 Cities.

An Olympic medal drives newfound interest in badminton

Badminton is the most hero-led sport in India, with sustained search interest in stars such as Sindhu and Nehwal. This provides opportunities to build a strong association with fans and reach out to the audience innovatively.

Kabaddi is beginning to build an audience online.

As kabaddi evolves and strengthens roots across all audience categories, it opens a new arena to target sports fans.

Competitors

User Personas

The Digital Native

- Active on Social Media use mobile to consume bite-sized content for scores and updates.

The Micro-Influencer

- Influences the group on the content to be watched. Organizes watch parties. Attends games with the premium seating arrangement. Infrequent in watching games.

Neo-Classical

- They are the modernized version of old super fans. Watch matches on TV. Crave behind the scene content and access to favorite players and teams.

Functionalities

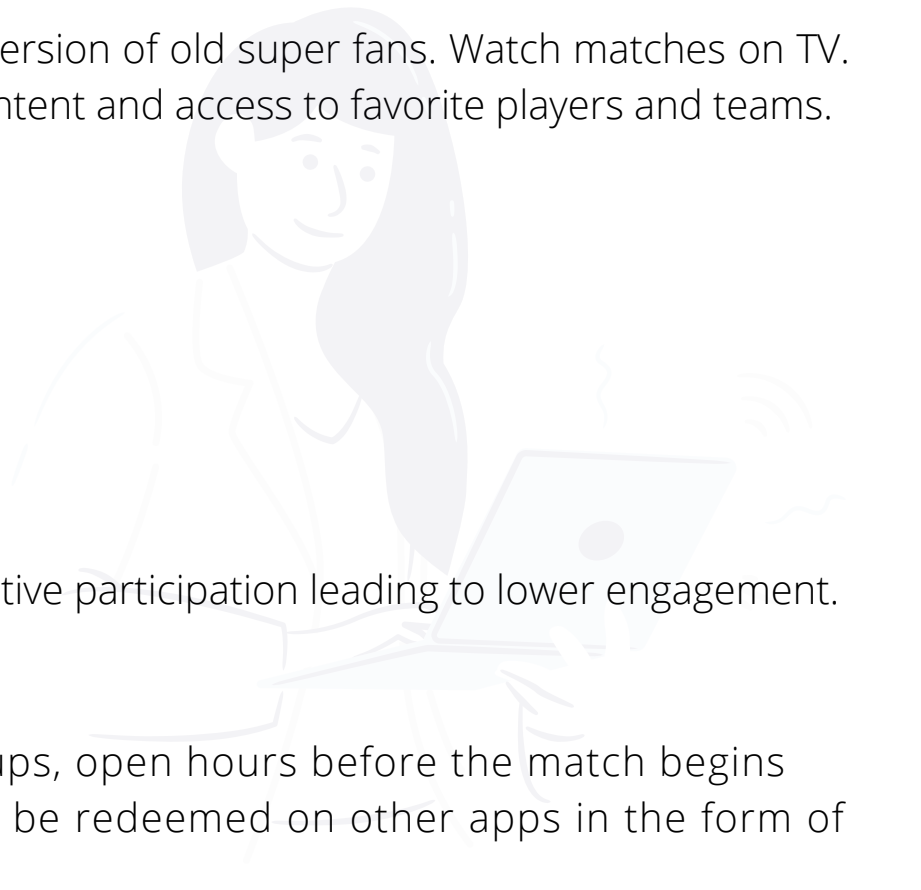

Predictions & Rewards

Pain Points

The content consumers lack active participation leading to lower engagement.

Solution

- Voting and Prediction popups, open hours before the match begins
- Coins won as a reward can be redeemed on other apps in the form of offers.

Sports Merchandising And Bidding

Pain Points

- Unable to buy sports merchandise for the team or player they feel attached to
- Not being rewarded for loyalty and hence do not feel affiliated.

Solution

- Partnering with 3rd Party vendors to sell the merchandise
- Auction of exclusive. Original editions of merchandise on the app. Bidding is to be hosted by Sportskeeda for a limited time.

Community Pages

Pain Points

- Users are unable to interact with similar fans via the platform. They are interested in watch parties and would want to use a platform for the same

Solution

- Player and team-specific community pages
- The sports fans will be able to chat, comment & share pictures with people of similar interest
- Location-specific watch parties can be organized, with live screening partnerships with pubs and restaurants.

Metrics to Track

North Star: Number of Daily Active Users (DAUs)

- New User Signups
- Number of Returning Users Retention rate
- Average session Time/User churn rate
- Monthly increment in revenue/source
- Net promotor score
- Customer Lifetime Value

Monetization Strategy

Sportskeeda's revenues are mainly advertising, and sponsorship is driven. However, Nazara Technologies had decided to add premium and subscription sections to open up more revenue streams.

- Since the onset of Covid, due to sports events cancellations, Sportskeeda has jumped to Esports and Gaming, quadrupling the revenue from April 2020.
- Wrestling section seems to be the biggest revenue driver in a Covid scenario
